Powder PCE Polycarboxylate Superplasticizer Ether

Introduction

Powder PCE Polycarboxylate Superplasticizer Ether is a new generation superplasticizer with high slump retention performance developed by the most advanced synthetic technology, a green environmentally product with good comprehensive index and no pollution, without toxic and infectious substances, no corrosives, and no precipitant.

Performance

1. Powder PCE Polycarboxylate Superplasticizer Ether has high water reducing rate and excellent plasticizing effect. And produces concrete with high levels of workability without segregation.
2. Excellent dispersion and self-compacting effect can produce different grade strength super fluid self-compacting concrete.
3. Powder PCE Polycarboxylate Superplasticizer Ether can be a substantial increase in early and late strengths of concrete, so that increase the project construction schedule.

4. Better plasticity-maintaining could significantly prolong the transit time of concrete, it reduce economic losses and ensure the normal pumping of concrete.

Package & Shipping

Packing	Normally packed in 25kg woven bags with inner plastic lining. Customized package may be available if required.
Storage	Kept in dry and ventilating place, prevent from rain and moisture when storage if agglomerated, please crush and make it into solution, and its effect will be the same.
Transportation	Non-toxic, harmless, non-inflammable and non-explosive chemicals it can be transported in truck and train.

Certificate

 **Shandong Zhuoxing Chemical Co., Ltd.**
Zibo Zhuoxing Enterprises Co., Ltd.

Company Introduction

Zibo Zhuoxing Enterprises Co., Ltd is an international trade company of Shandong Zhuoxing Chemical Co., Ltd., which is a fine chemical manufacturer with Polyoxyethylene ether HPEG 2400, TPEG 2400, EPEG 3000 with annual capacity 70,000 tons and output 60,000 tons, Polycarboxylate Superplasticizer (PCE) in liquid form and Polycarboxylate Superplasticizer Powder (PCE powder) with total annual capacity of 100,000 tons. We also produce liquid defoamer XP-11 for concrete and powder defoamer XP-12 for dry mixtures.

We develop the most advanced new material, the R&D team is always trying to keep the production technology updated by maintaining its communication with some universities and scientific centers in China.
